SILVERTON IS BECOMING BUSY MINING CENTER

Silvertown continues to make progress in point of development upon the property of the Treasure Hills Nevada Mining company, and the recent find made in crosscutting the East Contact vein from the 100 level of the shaft workings has disclosed 15 feet of vein matter that carries average values of \$21.85 a ton. Samples from the 3-foot vein of talc were eliminated by reason of the fact that this ore has been found to be worth \$97 a ton.

In crosscutting the East Contact vein, which has been proven to be of great richness for a length of nearly two miles, the hanging wall has not been reached, and it proves the same width on the 100 level as it did on the 80-foot level, then it will be in the neighborhood of 30 feet across. During the past week another shift of miners was put to work in the development of the Treasure Hill property, and advances just received from Harry C. Stimler, who is at present in San Francisco, were to the effect that the scope of development will be enlarged upon his return to Tonopah, which will be in about three days.

Joseph Tognoni, father of the Silvertown district, who was in Tonopah yesterday stated that work will shortly be resumed by the Silvertown Mining company, controlling the Cricket group of six claims. He says that during the week he had exposed the vein at one point to a width of 8 feet and that from a huge boulder of ore assays showing values of 1675 ounces silver and 125 ounces gold were reported. This ore is showing in the adit being driven on the vein which has been driven for 135 feet. It is now proposed to crosscut this vein to catch both walls.

MORTALITY IN MANILA DROPS GREAT DEGREE

(By Associated Press) MANILA, P. I., Nov. 15.—The lowest infant mortality in Manila since the establishment of the Philippine health service is recorded by the director of health in his report for the year 1920, which has just been completed. The general mortality rate for the islands for 1920 was the lowest in five years and the general health conditions were on the whole the most satisfactory since American occupation, the report says. The infant mortality in the city of Manila was 165 per thousand births as compared with 326 in the period from 1915 to 1919. In the provinces the infant mortality rate showed a decrease of 70 per thousand births, being 157, or the lowest since 1915. In Manila the general mortality was 30 per thousand population, a decrease of 125 per thousand as compared with 1919. In the provinces the greatest decrease in the mortality rate was shown, the general rate being 20.67 per thousand, which is less than one-half the rate of 1918 and 55.7 lower than the rate for 1919.

STYLES ARE PROMISING FOR AFTERNOON GOWNS

THE modes for fall and winter have been launched and are sailing in definite directions—driven by the winds of popular favor. Discussion of them naturally begins with the silhouette, which remains slender and plaity reveals its descent from the classic Greek draperies, or is even more simple and straight. Slenderness continues to be a charm for which every designer strives, excepting when his attention is occupied with evening gowns.

Nearly all afternoon gowns choose the straight line silhouette, the low waistline and often an uneven hem line. Sashes, panels and tunics vary them but do not break their graceful outlines. Supple materials must be used for them and therefore, charmeuse and the several weaves in crepe are in great demand. Duvelty and broad cloth are to be reckoned with and, for the most pretensions among them, there are velvet, brocade and melange. These fabrics and the fashionable trimmings would insure the afternoon frock an interesting season, but its greatest ally is the sleeve. Sleeves have taken onto themselves new shapes, new proportions and new trimmings—they are featured as the most important detail in the costume and reach the pinnacle of achievement in afternoon gowns.

Two conservative examples of new models in gowns for afternoon, are illustrated here. They reveal the simplicity in design, for which women have shown a preference, while appropriating new details of decorations and construction in a fine way. The duvelty gown at the right uses novel embroidery with discretion and employs it in the new flaring sleeves and bodice as well as the skirt. The charmeuse dress at the left approves the uneven hemline in its ruffle, but clings to these three-quarter-length sleeves finished with tucks. There is a little definition of the waistline with a sash of the charmeuse finished with handsome tassels. A silk galeon in four rows at the front relieves the plainness of the tunic.

VANDERLIP IS BELIEVER FAR EAST WELFARE

(By Associated Press) CONSTANTINOPLE, Turkey, Nov. 15.—Americans should continue their humanitarian work in the near east, said Frank A. Vanderlip, New York financier, when he visited this city in the course of an economic survey of Europe. "We may be charged with shirking our political responsibilities in the near east and with desertion of our associates in the late war when they came here to administer an exceedingly awkward and difficult situation," he continued, "but there is nothing but praise for America for her wonderful relief work here."

ROAD IMPROVEMENT TO ROYSTON NEEDED

The road between Millers and Royston, the new mining camp 28 miles north of Tonopah, is in a deplorable condition, and should be repaired at once. In view of the fact that part of this road lies in Esmeralda county, it will be necessary for some arrangement to be made whereby that county will bear its share of the expense. The commissioners of Nye county are considering the advisability of constructing a cut-off which will somewhat shorten the distance between Tonopah and Royston, and an inspection will be made officially this week previous to preparing plans.

Orleans Hornsilver Mining Company

Subscription for Treasury Stock at the rate of 35 cents per share will be withdrawn on November 20th.

The price will be advanced on that date. This action is taken on account of the wonderful showing on the lower level. The vein on the 700 level appears to be bigger and better than ever.

All subscriptions must be accompanied by remittance to cover the amount of purchase in full.

Application for stock should be made direct to the John S. Cook & Co. Bank at Goldfield, Nevada, or through your Broker.

Personal inspection of mine is invited.

BUT IT'S a mouthful.
AS YOU'LL agree if you.
JUST PUT it into good.
UNITED STATES, like this.
"SON, YOU'LL be running.
ON FOUR flat tires.
IF YOU don't hurry.
AND WRAP yourself around.
THE ONLY cigarette
THAT SATISFIES."

"THEY Satisfy"—nothing else so well describes Chesterfields' mildness, their mellowness, their delicacy of aroma and smooth, even "body." It took the finest varieties of Turkish and Domestic tobaccos to do it—and the highest order of skill in blending them. Yes, the Chesterfield blend is a secret. It can't be copied.
